### DETAILED ACTION

1. The Office Action is in response to the Board of Patent Appeals and Interferences (BPAI) Decision of July 22, 2005, reversing the previous rejection of all claims. The currently pending claims considered below remain Claims 1-9, 11-13, 15-23, 26-36, 38-42, and 46-71.

#### ***Allowable Subject Matter***

2. Claims 1-9, 11-13, 15-23, 26-36, 38-42, and 46-71 are allowed.

3. The following is an examiner's statement of reasons for allowance:

While prior art was found which discloses using wireless network access points to provide advertisements to mobile device users within the vicinity of the access point, where the access point detects the presence of a mobile device within its vicinity, the mobile device provides identification of the user to the access point, an information provider accesses the user's historical file/demographic profile to select and transmit information (e.g. advertising) dependent upon the user's historical/demographical data to the mobile device of the user (Rudow, 6,236,360)(Lawlor et al, 6,202,054)(Thomas A. Dingus et al, "Human Factors Engineering the TravTec Driver Interface"), according to the above BPAI Decision it would not have been obvious to combine the known method of polling by a base station with the references in which the user or the mobile device initiates the connection to achieve the claimed invention.

Art Unit: 3622

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
